- Low battery Alarm
- Auto re-lock: default of 5 seconds
- Removable battery box
- Changeable interior PC board
- Audit trail: Up to 4000 access logs
- Weight: 2.5 KG
- DOOR RANGES- 1 3/8" to 2" thickness
- Standard Backset 2-3/4" or 2-3/8"
- Latch bolt: Stainless steel latch bolt with 1/2" throw, fire rated 3 hours
- Low battery warning
- Weather resistant- Operation Temperature: -35°C to 65°C

Commercial use

NUTAG3-M9001

cellbedell system

- ANSI 156.25 Grade 3 certificated
- User access Methods: Smart phone ; RFID Card ; Key
- Mortise with card reader
- Material: Stainless, PVC
- Weight :3 KG
- DOOR RANGES- 2- 3/4"(70mm) thickness
- Size: 203mm *108mm*32mm (Mortise)
- User capacity: 1 Admin + 50 Phone users and 200 Card users
- Programming: Smart phone, Setting card
- Uses 4 AA alkaline batteries
- Low battery Alarm
- Auto re-lock: default of 5 seconds
- Removable battery box
- Changeable interior PC board
- Audit trail: Up to 4000 access logs

Commercial use

NUCNL-S3002

cellbedell system

- User access Methods: Smart phone ; RFID Card ; Key
- User capacity: 1 Admin + 50 Phone users and 200 Card users
- Programming: Smart phone, Setting card
- Uses 4 AA alkaline batteries
- Low battery Alarm
- Unlock time : ≈ 1.5 s
- Auto re-lock: default of 5 seconds
- Removable battery box
- Changeable interior PC board
- Audit trail: Up to 4000 access logs
- Cylindrical chassis replaceable with mortise
- Size "178*66*21MM (packaging: 30*22*10cm)"
- Material: Zinc alloy
- Weight: 2.5 KG
- Wireless technology :BLE 5.0, NFC, RFID
- Support system Android 5.0 / IOS 7.0 (and above)
- Door thickness: 30-65MM
- Operation temperature : -15C-55°C

Commercial use

NUCNM-T2001

cellbedell system

- User access Methods: Smart phone ; NFC Card ; Key
- User capacity: 1 Admin + 50 Phone users and 200 Card users
- Programming: Operated via BLE on APP
- Uses 4 AA alkaline batteries
